Picando Capsules

BPH
Urogenital Disorder
Inflammation of Prostate
UTI

Dosage : 1 bid after food

Gokshura - 80mg | Punarnava - 80mg | Haridra - 40mg | Pumpkin Seeds - 100mg,
Kali Mirchi - 20mg | Shitalchini - 50mg | Kanchnar Guggul - 50mg | Vang Bhasma - 30mg,
Sphatika Bhasma - 20mg | Abhrak Bhasma - 20mg | Swarna Makshik Bhasm - 10mg

- **Gokshura** : Used to deal with kidney and urinary problems, & also as a sexual libido enhancer. It is also considered an aphrodisiac and libido-enhancer.
- **Punernava** : Because of its diuretic action, it can be used in relieving urinary retention, where structural anomaly is not the cause for the retention.
- **Pumkin Seeds** : An important natural food for men's health due of their high zinc content it is important for prostate health.
- **Haridra** : Helps to eliminate all the toxic effects due to food poisoning by increasing the urine output.
- **Shital Chini** : It has the ability to solve diuretic and expectorant problems.
